

THE CHARTERED INSTITUTE OF BANKERS OF NIGERIA

(Incorporated in 1976 and Chartered by CIBN Act No.12 of 1990, now Act. No.5 of 2007)

BANKING PROFESSIONAL EXAMINATIONS

Regulations and Syllabus

The new Regulations and Syllabus has been designed to address emerging and contemporary issues taking into cognisance, identified skill gaps, the Competency Framework for the Nigerian Banking Industry and global best practices.

The central objective of this initiative is to ensure that candidates taking the professional banking examinations are adequately equipped with knowledge and skills required to function effectively at various levels not only in the banking and finance industry but also in all sectors of the economy.

ABOUT THE NEW REGULATIONS AND SYLLABUS

The Institute reviews its Professional Banking Examinations Regulations and Syllabus every three years. This is to ensure that the contents are contemporary and cover emerging relevant issues within and outside the banking and finance industry that have implications for human capacity knowledge, skills and competencies.

Consequent on the above, the Institute has reviewed the 2010 Regulations and Syllabus. The new Regulations and Syllabus has been designed to address emerging and contemporary issues taking into cognisance, identified skill gaps, the Competency Framework for the Nigerian Banking Industry and global best practices.

The central objective of this initiative is to ensure that candidates taking the professional banking examinations are adequately equipped with knowledge and skills required to function effectively at various levels not only in the banking and finance industry but also in all sectors of the economy.

The new Regulations and Syllabus is a product of extensive domestic and international studies, consultations and assessments initiated by the Institute to evaluate the structure and contents of the hitherto subsisting Regulations and Syllabus.

In the new Regulations and Syllabus, the professional banking examinations have been structured into three levels – Diploma, Intermediate Professional and Chartered Banker - effective January 2014. However, a transition period of one year (i.e. two examination diets) commencing from April 2014 is allowed during which time the current Regulations and Syllabus and the new one will be used concurrently for April and October 2014 professional examinations. The new Regulations and Syllabus will thereafter, constitute the only one for the professional banking examinations from April 2015 until further review and notice. Subjects hitherto passed by candidates under the current Regulations and Syllabus will be recognised as passed under the new Regulations and Syllabus.

It is important to emphasise that, unlike in the past, under the new Regulations and Syllabus, candidates shall be issued appropriate certificates at the successful completion of each level.

The new Regulations and Syllabus has been enriched with contents that meet the demands on the 21st century professional Chartered Banker and has also been aligned with the contents of the Competency Framework for the Banking Industry in Nigeria. It is therefore, highly recommended for anyone who wishes to rise to the summit of his/her career as a Professional Chartered Banker, irrespective of his/her occupation in the economy.

Uju M. Ogubunka, Ph.D., FCIB
Registrar/Chief Executive
